

Euro Cleaner

Product Specification

Applications

All Oiled Hardwood Flooring.

Contains

Euro Cleaner is based on polyethylene glycols.

Technical Data

Working temperature: 10 - 25°C (50 - 77°F).

Dilution: with water, depending on desired strength 1: 50 to 1:100. Warm water improves the cleaning result.

Periodical cleaning (e.g. weekly): add 1/2 cup of Euro Cleaner to 1.32 gallon water. Clean with a damp cloth or mop. Follow the Maintenance and Care Guide of the flooring manufacturer.

Packaging: 1 liter.

Storage: Room temperature or between 10 - 25°C (50-77°F).

Important: Dry excess Euro cleaner moisture from the flooring surface. Leaving any liquid "puddles" can damage the flooring surface.

Instructions for use

The flooring surface must be dry, vacuumed well & free of any dust or grease. Add Euro Cleaner to warm water (1/2 cup of Euro Cleaner to 1.32 gallon water). Clean with a damp cloth or mop.

Maintenance of your floor

Daily cleaning: Dry Clean with soft cloth and/or Vacuum.

Periodical cleaning (e.g. weekly): add 1/2 cup of Euro Cleaner to 1.32 gallon water. Clean with a damp cloth or mop. Follow the Maintenance and Care Guide of the flooring manufacturer.

Above product information and recommendations are given in good faith and based on practical tests following long term research and development. We cannot assume responsibility for any work as the ultimate results depend on factors beyond our direct control. In cases of doubt always test the product in advance.
