EU-limit for this product (cat. A/f): 700 g/l (2010). This product contains max. 690 g/l VOC.

Packing: 1 liter (33.82 fl.oz)

Instructions for use

The flooring surface must be dry, vacuumed well & free of any dust or grease. Then clean the flooring surface using a Bella Citta approved cleaner. Allow the cleaner to completely dry. Stir your Euro Maintenance Oil thoroughly prior to use. Next apply the Euro Maintenance Oil onto the flooring surface working in small areas at a time. The product should be applied in a thin and even layer with a clean cloth in the direction of the wood graining. Allow the product to thoroughly dry to the touch prior to walking on the surface. For larger areas we recommend using a buffing machine. Dribble the Euro Maintenance Oil on the flooring surface in the shape of a snake. Polish the product into the floor with the buffing machine using a thick white pad. Allow the product to thoroughly dry to the touch prior to walking on the surface.

Above product information and recommendations are given in good faith and based on practical tests following long term research and development. We cannot assume responsibility for any work as the ultimate results depend on factors beyond our direct control. In cases of doubt always test the product in advance.
