- **IGT** = "In Grain Texturing" surface treatment. IGT is our premium surface texturing option offering 3D wood graining and the true feel of real hardwood flooring. The IGT Surface texturing traces directly over the plank graining, character and knots providing the most authentic appearance in the industry.
- **ST** = "Soft Touch" surface texturing. ST is an upgrade option that accentuates the surface of each plank to replicate the appearance of hardwood.
- **I4F** = Innovative 3L TripleLock & CLICK4U Locking System. A patented & technologically advanced ultra-strong locking system to withstand heavy use.
- EnduraTuff Finish
 A **20mil** commercially rated wear layer that is designed for high traffic residential and commercial applications. The 20mil wear layer comes with a **Lifetime Residential and 15 Year Commercial warranty**.
 A **12mil** commercially rated wear layer that is designed for high traffic residential and light traffic commercial applications. The 12mil wear layer comes with a **Lifetime Residential and 5 Year Commercial warranty**.
- 4-Side Bevel = Offered in two inline 4-sided beveling options to individualize & accentuate each plank.
DVB = Deep V-Bevel. Our 4-sided deep beveling option accentuates each plank and creates the most authentic appearance to hardwood.
MB = Micro-Bevel. Our 4-sided micro beveling option offers a monolithic surface visual.
- NoiseBlok - A quiet & comfortable 1.5mm or 1.0mm thermo-acoustical underpadding designed to minimize noise and provide resiliency to the foot, knees and joints.
- AquaBlok - A stabilized rigid core that is 100% WATER PROOF.
- Resistant to spills and stains caused by accidents.
- Formaldehyde & Phthalate Free. Our Flooring is FloorScore® certified for Indoor Air Quality. This makes your living space a healthy place for your family.
